

Strathallan Golf Club Competition

Adding a Guest

Version 1 15/7/2026

Here's how to add a guest so they can play with their GA handicap, score on their mobile phone and have their scores uploaded into Golf Australia.

1. **Use your BRS Golf App to add your guest into the competition,** by clicking on a playing slot and selecting "Guest" from the drop down menu. The entry will appear as "Guest with (your name)". For example:

2. **At least one day prior to the competition day, send an email to Stathallancomps@gmail.com** advising the guest's details (Competition day/date, Guest name; Golf Id; Gender; email address).

This will enable the GG administrator to add the guest into the competition playing list within Golf Genius and arrange for the guest's GA handicaps to be downloaded from Golf Australia.

3. Alternatively, guest registration into the BRS timesheet can be done from the Office computer using the BRS web portal. A similar entry should be added, ie "Guest with Joe Smith".
4. On competition day, the Guest should log into the **BRS Scoring App**, using the **Player GGID** advised by the GG administrator. The app will need to be previously installed on their phone.
